## **INTRODUCTION**

National security is key if the “Big Four agenda” is to be realized. Security is one of the pillars required for long term investment and sustenance of existing ventures. There is need for a concerted effort from the Government and the citizenry to deal with any threats to National Security. Proliferation of light weapons, corruption and illicit brews among others fuel other crimes.

The government continued investing in internal security by equipping the police, improving their welfare and embracing a multi sectoral approach to fighting insecurity. There was a 13% increase in number of crimes reported.

### **A. CRIME ANALYSIS**

#### **i. Annual Crime Comparison**

In the year 2018 there were 88,268 reported cases as compared to 77,992 in 2017 which was an increase of 10,276 cases or 13%. In 2016 there were 76,986 cases reported to police which increased to 77,992 in 2017 translating to an increase 1,006 or 1%. It is projected to rise in the year 2020. Incidences that have been on an upward trend include Defilement, Assault, General Stealing, Creating Disturbance, Possession of drugs for personal use (Cannabis Sativa) and Malicious Damage. These crimes are mostly associated with alcohol, drug and substance abuse.

In the period under review there were increase in cases under the categories of Offences against morality **1,741** cases or **31.7%**, Other Penal Code Offences **1,181** cases or **17.4%**, Criminal Damage by **521** Cases or **12.2%**, Other Offences against Persons by **2,534** cases or **11.3%**, Economic crimes by **405** cases or **11%**, Stealing by **1,189** cases or **10.2%** and Robbery **222** cases or 8.2%.

The major increases were recorded in the individual crimes of Possession of Dangerous Drugs (Cannabis Sativa) by 2,268 cases, followed by Assault 1,544, Defilement 1,450 and General Stealing 1,258. The other 48 increases recorded less than 1000 each. Decreases were recorded in Stealing by Servant 249, Theft of Stock 59, Usage of Drugs 40, Stealing

from Person and Theft of Motor cycle by 36 cases. The other 11 decreases were less than 30 each.

Decreases were however noted in the following categories; Theft by Servant by **155** cases or **5.9%**, Theft of Stock by **59** cases or **2.8%**, Breakings **161** cases or **2.6%**, and Vehicle and Other thefts by **34** cases or **2.4%**.

(See Appendix 1)

#### ii. **Monthly Crime Index**

The month of July had the highest number of cases reported recording **7,782** cases. It was followed by October with **7,701** cases and September with **7,659** cases. The least number of cases were reported in the months of March **6,728** cases and April **6,707** cases.

It is also important to note that increases in monthly crimes were recorded in August (**35.5%**), November (**22.9%**) October (**22.2%**), July (**21%**), September (**18.2%**), June (**12.5%**), December (**10.6%**), May (**4%**), March **2.7%**) and February (**2.4%**). Decrease was recorded April (**1.7%**). (See Appendix 2)

#### iii. **Regional Crime Analysis**

Rift Valley region was the region with the highest crime recorded with 19,802 cases. Most of the cases reported in Rift Valley fell under the category of Other Offences Against Persons (6,205), followed by Stealing (2868), Offences Against Morality (1,687), Other Penal Code Offences (1,659), Breakings (1,455) and Criminal Damage 1,134.

Most of the offences reported were Assault which had a total of 4,386 followed by Creating Disturbance 1,577 and Affray 452.

Within Rift Valley region Nakuru County had 4,329 cases which was the highest in the region. The prevalent crimes in Nakuru were under the categories of Stealing 935, Other Offences Against Persons 917, Offences Against Morality 359, Breakings 351 and Other

Penal Code Offences 304. Under the category of Stealing General Stealing accounted for 834 cases or 89%. (See Appendix 3)

Eastern region was second recording 17,062 cases with Meru County leading in terms of crimes reported to police at 5,689 cases. The category with the highest number of offences in Eastern region was Other Offences Against Persons at 5,180 cases (Assault 3221, Creating Disturbance 1,824, Affray 135). The individual offence that recorded the highest figure was Assault.

Central region was third recording 15,690 cases with Kiambu County leading with crimes at 6,932 cases. The category with the highest number of offences in Central region and Kiambu County was Possession of Dangerous drugs (Cannabis Sativa) at 2,913 cases and 1,543 cases respectively.

#### iv. **Crime Index per 100,000 of the Population**

Lamu County had the highest crime index of **427** followed by Kiambu **472**, Meru **419** Kirinyaga **409** and Isiolo **358**. The least crime index was recorded in Mandera with **51**, Wajir **65**, Garrissa **78**, Turkana **114** and West Pokot **128**. (See Appendix 4)

#### v. **County Crime Analysis**

Nairobi County recorded the highest number of cases reported to police at **7,128**. The largest number of cases reported in Nairobi involved Offences Against Persons at 1,513 cases (Assault 1,243, Creating Disturbance 216 and Affray 54). The highest number of Assault cases reported is an indication that most offences are between persons known to each other. Majority of the cases in Nairobi County were reported in Central Police Division.

Kiambu County was second with **6,932** cases, majority of the cases being Possession of Cannabis Sativa. Meru was third with **5,689** cases, 34% of those cases being Offences against persons. Assault recorded 1209 cases, Creating Disturbance 688 cases and Affray

30 cases. Mandera County was the least recording a total of **337** cases. Most of the cases reported in Mandera were Possession of Cannabis Sativa. Assault was second recording 71 cases.

A total of 39 counties recorded increases with Kiambu leading with an increase of 1,329 cases, followed by Kilifi by 833 cases, Murang'a 668 cases, Kakamega 596 cases and Kitui 29 cases. Decreases were recorded in 8 Counties with Nairobi leading by 306 cases, followed by Laikipia 120 cases, Turkana 114 cases, Mandera 109 cases and Kajiado 110 cases. The other three counties had decreases of less than 50 cases. (See Appendix 5)

## **B. CAUSES OF INSECURITY**

### **i. Terrorism**

Al shaabab militants continue to be a security threat in the North Eastern and South Coast regions of the country. This is due to the proximity of these areas to Somali which is their main hide out. Ambush on security camps and planting of IEDs along Murrams roads used by security officers on patrol were the main tactics used to carry out these attacks. Other targets included quarry workers and social places. The time of attack ranged from midnight to early morning hours.

During period under review, there were 44 recorded cases of terror attacks as compared to 80 in the year 2017, which was a 40% decrease. As a result of these incidents, 49 people were killed and 41 injured. Out of those killed 23 were police officers, 16 were civilians and 8 were Al shaabab militants. The attacks mostly targeted security personnel and led to the injury of 33 police officers and 8 civilians.

Mandera County recorded 19 cases which account for 40% of the total incidents. Garissa County recorded 11 cases or 23%, Wajir County recorded 7 cases or 15%, Lamu County recorded 5 cases or 10% of terror related cases and Isiolo County recorded 2 cases or 4%. (See Appendix 6). A total of 38 suspects were arrested.

To counter the threat of terrorism the Government enhanced the capacity of security personnel through bilateral and multilateral partnerships where security personnel from various agencies received specialized counter terrorism training; and sustained security operations and Civil Military Cooperation(CIMIC) activities in the Boni enclave.

## **ii. Cattle Rustling**

Cattle rustling continued to be a threat to security in the in the northern part of the country leading to fatalities and displacing families. During the period under review, **133** cases of cattle rustling and stock theft were reported as compared to **130**cases in 2017. A total of **10,726** livestock were raided with **5,319** recovered as compared to **4077** livestock raided and **796** recovered in the previous year. Twenty-eight (28) people were killed while 58others injured as compared to **20** people killed and **17** people injured in 2017. (See Appendix 6)

Rift Valley region had the highest number of cases posting **99** cases of the total cases reported. Nyanza was second recording 18 cases while Eastern region was third with **7** cases. (See Appendix 7 and 8)

Factors that have continued to contribute to cases of cattle rustling include competition for water and pasture for animals, boundary disputes, negative politics and outdated cultural practices.

To deal with this menace the police increased the number of National Police Reserves(NPRs)to deal with cattle rustlers, carried out a disarmament exercise to confiscate illicit weapons and carried out security operations to recover stolen livestock.

## **iii. Influx of Illegal Aliens and Undocumented Immigrants**

Aliens and undocumented immigrants move into the country for different reasons. The reasons include political instability in their home countries, seeking for better opportunities in Kenya, criminal intents and using the country as a transit route to other

countries. In light of insecurity caused by terrorism and other transactional crimes it is prudent that all aliens and undocumented immigrants be processed through the legal structures.

In the year under review a total of **2,173** aliens and undocumented were immigrants arrested all over the country. The highest number of those arrested were Tanzanian and Ethiopians who accounted for more than 40%. The aliens included Tanzanians **455(21%)**, Ethiopians**452 (21%)**, Somali**281 (13%)**, Nigeria**146 (7%)** South Sudanese**137 (6%)** and Ugandans**106 (5%)**. Other nationalities included Sudanese, Burundians, Chinese, Congolese, Rwandese, Britons, Indians, Germans, Italians, South African, Canadian, Egyptian, Guineans and unknown nationalities who accounted for less than 100 people. (See Appendix 9)

In an effort to deal with this challenge joint operations of inland migration corridor in border control checks were conducted. Investigations, arrest, prosecution, as well as deportation of foreign nationals who are engaged in crimes was enhanced.

#### **iv. Proliferation of Illegal Firearms and Light Weapons**

The effect of having illegal arms and ammunitions in the wrong hands in Kenya continues to be a matter of concern to security agencies. Pastoralist areas and major towns have recorded a high number of criminal incidences that are attributed to availability of illegal guns. Pastoralist communities who live in expansive areas that are sparsely populated are affected the most.

During the period under review, **192** firearms were recovered and **19** surrendered. Most of the firearms recovered were in Nairobi County which recorded 121 recoveries followed by Narok 21 and Kiambu 12. Together with the firearms **1,314** ammunition were also recovered. Most of the firearms surrendered were in Narok County which recorded 13 firearms.

To deal with this threat an amnesty was extended for the period ending September 2018 which led to the surrender of 166 illicit arms. The Government is further implementing a directive on issuance of biometric cards for all licensed firearm holders. This is in addition to the prioritization of surveillance against this threat to identify the distribution networks. Other key interventions include marking of government owned arms. And training of security personnel on Physical Security and Stockpile Management (PSSM).

### **C. POLICE OFFICERS KILLED IN LINE OF DUTY**

In the period under review a total of **65** officers lost their lives in the course of duty. Terrorism accounted for 23 deaths or 35% which were recorded in the counties of Wajir and Garissa. This was as a result of attacks targeting police facilities and police officers on patrols. The number of deaths recorded in Rift Valley region was as a result of cattle rustling where bandits ambushed police officers mainly in Samburu County.

A total **536** police officers were injured in the line of duty. Most injuries were as a result of road accidents and during encounter with terrorists. (See Appendix10)

To arrest this challenge facing police officers a raft of measures were put in place and these included reorganization of the National Police Service command structure in conformity with NPS Act 2011, and assignment of specific and distinct functions to DIG's Kenya Police and Administration Police Service; Kenya Police Service to focus on public safety and security while the Administration Police Service to focus on protective and border security as well as combating cattle rustling and banditry. The criminal investigations to be handled by the DCI.

### **D. ILLICIT BREW**

Consumption of locally brewed illicit brews continues to affect the productivity of Kenyan youth and at times affects their health. Some of the brew like Simba Waragi which finds

its way into the Country from across the borders, packaged in easily portable and lowly priced sachets erodes the efforts multi agency teams have put in place to curb alcoholism. Consumption of such illicit brews has an effect on the health of the consumers and at times leads to death.

During the period under review, police netted a total of **194,341.6** litres of illicit brew as compared **175,997** litres netted in 2017. This was an increase 18,344.6 litres or **10.4%**. In total 13,061 persons that included consumers, brewers, distributors and retailers were arrested as compared to **21,410** persons in 2017 which is a decrease of 8,349 or **39%**. Rift valley and Nairobi regions recorded the highest number of persons arrested. (See Appendix 11)

A multi-agency approach has been initiated to deal with this threat to the country's workforce and this involves carrying out of raids in collaboration with the government administrative officers.

#### **E. SCHOOL UNREST**

Student unrest is agitations, strikes, boycotts of classes in schools, colleges, universities and other educational and training institutions. Student unrest is a great threat to our system of education, training programs and development. The student unrest sometimes leads into violence, arson and destruction of school property. A number of reasons have been as the causes of school unrests.

In the period under review 163 schools were affected by unrest as compared to 212 schools affected in 2017. This was a decrease of 49 cases or 23%. Out of the schools affected 60 were as a result of arson. (See Appendix 12)

Among other measures, the government has Introduced security measures such as signing in and out of schools by all visitors and vetting of security guards manning schools.

## **F. DRUG AND SUBSTANCES ABUSE**

Drug and substance abuse continues to affect the health, social and economic wellbeing of the users who are mainly the users. In areas where drug abuse is rampant the rates of certain types crime are higher because drug abuse is an expensive habit and needs to be constantly sustained.

In the period under review a total of **3,386** cases were detected as compared to **4,510** cases in the year of 2017. This was a decrease of 1,124 or 24.92%.

A total of 3,432 people were arrested, 3,407 Kenyans and 25 foreigners. 3131 cases involved possession, 224 involved trafficking while 20 cases involved cultivating. Police netted a total of **1451 sachets, 9 tabs, 4466 kilograms, 83,071 rolls, 10,804 plants, 5,823 brooms, 3,568 stones and 3,231 sticks** of Cannabis sativa (bhang) and arrested 3,353 suspects, 3,333 Kenyans and 20 foreigners.

The Central region led with the number of arrests recording a total 1,473 Kenyans and 1 foreigner and a total of **935 sachets, 549 kilograms, 36961 rolls, 84 plants, 1 broom and 135 stones** netted. Rift Valley was second with 447 people arrested and **9 sachets, 9 tabs, 2,388 kilograms, 17,801 rolls, 510 plants, 523 brooms and 31 stones** netted. (See Appendix 13)

To address with the drug abuse menace the police are mapping of hotspots and common routes, creating better synergy between the DCI and Government Chemist and adoption of the follow the money approach to investigations and prosecutions.

## **G. BORDER INCIDENTS**

The country continues to face challenges of making her borders impermeable. Due to porous nature of our borders cross border crime continues to be a challenge. Kibish in Turkana County emerged as a hotspot for such incidents. In some incidents the security

officials/ personnel from countries namely Ethiopia and Uganda come through the border and confronted Kenyan civilians and security personnel.

During the period under review there were a total of 26 reported border incidences as compared to 36 incidents in 2017 which was a decrease of 10 cases or 27%. The incidences resulted 11 deaths, 10 civilians and one administrator. 4 injuries were also reported involving 3 civilians and 1 police officer.

Measures to deal with the cross-border incidents that have been put in place include revitalization of the securitization of the Kenya-Somalia border project and inclusion of Marine Police Personnel in the Kenya Coast Guard Service to deal with maritime security in the territorial and inland waters.

#### **H. ROAD TRAFFIC ACCIDENTS**

Road traffic accidents continue to cause deaths and injuries to road users despite the government's effort to reduce the numbers of such accidents. The major causes of road accidents include: speeding, overloading, drunk driving, fatigue, wrong use of the road by pedestrians, poor roads infrastructure and non-observance of traffic laws.

There was a total of 5,188 cases of road traffic accidents in 2018 as compared to 4,456 cases in 2017 which was an increase of 732 cases or 16 %. These accidents led to 12,985 victims in 2018 as compared to 11,233 cases reported in 2017 which was an increase of 1,752 cases or 16 %. This included 3,163 fatalities as compared to 2,924 in 2017.

54% of the victims were passengers even though majority of them sustained slight injuries. Majority (38%) of those killed were pedestrians. Drivers and motor cyclists were responsible for 59% of all road traffic accidents. Majority or 30% of all accidents were caused by motor cars and utilities.

Total fines collected was Ksh.683, 226,000/= as compared to Ksh.661, 585,138/= in 2017 which was an increase of Ksh.21, 640,862/= or 3 %. (See Appendix 13)

To deal with road carnage the government employed measures which included introduction of tamper proof speed governors for all PSV vehicles, use of the alcohol breathalyzers (Alco-Blow) to deal with drunk driving and use of speed guns. In addition, road safety campaigns were conducted using the media especially on proper use of the roads by the pedestrians since they were the most affected by these accidents.

## **I. DOMESTIC VIOLENCE**

Domestic violence is assault and/or abuse perpetrated by a family member against another. It includes physical violence, psychological violence, and emotional abuse. It is often accompanied by emotional abusive and controlling behavior. Domestic violence can result in physical injury, psychological trauma, and in severe cases, even death. The devastating physical, emotional, and psychological consequences of domestic violence can cross generations. Most domestic violence cases go unreported due to fear of stigmatization and family interference.

During the period under review, there were a total of 148 reported cases. Western region reported the largest numbers of cases at **39** cases. It was followed by Rift Valley region at **24** cases, Nyanza at 21 and Central at **19** cases respectively. Most of the victims were women, girls, men and boys in that order. (See Appendix 14)

In an endeavor to deal with domestic violence cases which are sensitive the Police Service has in place a gender and children protection directorate headquartered at the Kenya Police Service headquarters. Additionally, every police division across the country has a dedicated gender and children desk which has officers dedicated to their peculiar needs. Effort are in place to ensure all officers manning these desks have special training.

## **J. WAY FORWARD**

### **Reorganization of the National Police Service**

Despite the formation of National Police Service under the command of Inspector General there still existed infrastructural gaps in the National police service. There also existed police cultural gap between Kenya Police Service and Administration Police Service and their constituent formations and units which had to be closed.

In 2018, the Government launched a policy framework and strategy for reorganization of the National Police Service which resulted to the initiation of the following reform programmes;

- Reorganization of the National Police Service command structure in conformity with NPS Act 2011, and assignment of specific and distinct functions to DIG's Kenya Police and Administration Police Service; Kenya Police Service to focus on public safety and security while the Administration Police Service to focus on protective and border security as well as combating cattle rustling and banditry. The criminal investigations to be handled by the DCI.
- In order to eliminate wastage, duplication and overlap of roles and harness synergy 39,680 KPS and 24,572 APS officers were integrated under the command of DIG KPS. This will give a total of 64,252 KPS officers, boosting the general duty police population ratio from 1: 991 to 1: 643. In addition, all police posts, camps and patrol bases formally under APS and KPS were integrated and merged to fall under one police station.
- Integration of 2,500 Anti Stock Theft Unit (ASTU) and 482 APS Stock Theft Prevention Units to increase its strength to 5,000 APS-ASTU under the command of DIG-APS.
- Align Police geographical/operational boundaries with current administrative boundaries and create unified command as follows; Regional police commander (RPC), County police commander (CPC), Sub county police commander (SPC) and

Officer in charge of Police Station (OCS) to be the ward commander in charge of a police station and its posts/patrol bases.

- Introduced house and commuter allowances for police officers to address acute shortage of accommodation.

## APPENDIX

### Appendix 1: Comparative Crime figures for the Period 2016/2017/2018

CATEGORY OF OFFENCES	2016	2017	DIF.	% DIFF	2017	2018	DIF.	% DIFF
